Our products can be used for the following:
- Home Entertainment rooms
- Home Studios
- Offices
- Partitioning
- Generators

Depending on your circumstances, budget and desired results, Aerothane Applications will have a solution to suit you.

Standard Acoustic Tile - Size 500mm x 500mm (also available in 250mm x 250mm)

Profiles available
- Plain
- City Scape
- Egg-shape
- Wedge
- Pyramid

ECONO RANGE

The most economical option of all the ranges.

- Open cell 30kg density foam
- Colour available - grey
- Flame retardant
- Good NRC's
- Available in various thicknesses
- with or without a self-adhesive backing
- available in various sizes (to order)
- can be painted (Not recommended for acoustic properties)

    available in a plain or eggcrate profile

Prices – with self-adhesive backing

	Thickness and profile	Price
500mm x 500mm tile	25mm plain	R50 each excl
	50mm plain	R100 each excl
	32mm eggcrate	R100 each excl
250mm x 250mm tile	25mm plain	R15 each excl
	50mm plain	R25 each excl
	32mm eggcrate	R25 each excl

ROCKWOOL RANGE

Rockwool is probably one of the most popular and widely known materials for its acoustic properties.
At a density of 80 to 100kg m/3, it absorbs the biggest range of sound frequencies

- Excellent acoustic properties
- Class A1 fire rating
- Non-combustible
- Only available in black
- Widest range of safe uses
- Great for
  o movie theaters,
  o offices or anywhere that needs to conform to fire safety standards
  o suspended ceilings

- This is the product that was used at Atlantic Studios in Montague Gardens
- Manufactured to European standards
- Recommended to be covered with Sonic Liner, due to its fibrous nature
- 80kg to 100kg density

available in a wide range sizes, the only profile available is plain

Prices – without self-adhesive backing

	Thickness and profile	Price
500mm x 500mm tile	25mm plain sonic liner	R60 each excl
	50mm plain sonic liner	R120 each excl
1000mm x 600mm tile	25mm plain sonic liner	R120
	50mm plain sonic liner	R240

PREMIUM RANGE

Aerothane Applications premium range of acoustic products include complete sound absorption, sound blocking and sound deadening materials.
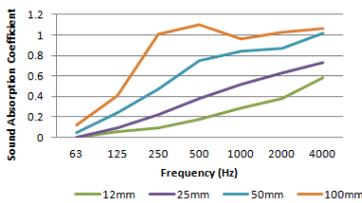

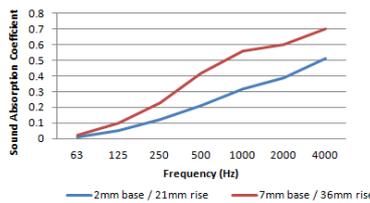

The range consists of

- **Aero-sorb**
  - o 100kg density open cell polyurethane that has been carbon impregnated
  - o 100% non flammable
  - o Class A1 Fire rating
  - o Best of best noice reduction co-efficients

Profiles available are plain and egg-crate

Prices – with self-adhesive backing

Thickness and profile		Price
500mm x 500mm tile	25mm plain black	R75
	50mm plain black	R150

- **Aero-blok**
  - o This is a mineral loaded polymeric barrier; it has excellent sound insulation properties, which can be used as the sole sound absorption layer or as part of a multilayer composite with other materials. E.g. Pyrosorb-S.

Prices – without self-adhesive backing

Thickness and profile		Price
500mm x 500mm tile	1.6mm plain	R35
